CII Naoroji Godrej Centre of Manufacturing Excellence

Online Programme on

Online Workshop on Zero defects using Poka-Yoke

Date: 4 - 5 August 2021
Timing: 2:30pm – 5:30pm (both days)

INTRODUCTION

Quality is the only distinction between existence and extinction of a business. It is no longer an advantage.

Customers expect the highest quality, always and it has become a must-be requirement today. The luxury of responding to customer complaints and awaiting their feedback is no longer available as they have multiple options to choose from and will do so at the first instance of dissatisfaction.

Zero-Defect is Possible by practicing! It is the first step towards achieving Zero Defects and even Zero Accidents.

Attrition and scarcity of resources are becoming perennial problems of the organisations and Poka-Yoke is a vital solution to these problems. By principle, it adds skill to the processes and the machines, leading to efficient and defect free operations.

OBJECTIVE :

Overview of Business Improvement Initiatives by way of

- Built in Quality
- Measurements
- Poka Yoke Designs
- Poka Yoke Mechanism
- Evolution of Defect Control
- Zero Defects Project
