We help Businesses to increase their bottom line by 1% every year without any Capital Investment.

We strive to make your investment a wise choice – with minimum 5 times ROI in same year of engagement

## What we do?

Through our consulting, we improve Quality of Life of society by adding value to businesses and inspiring people to believe Wisdom isn't alien.

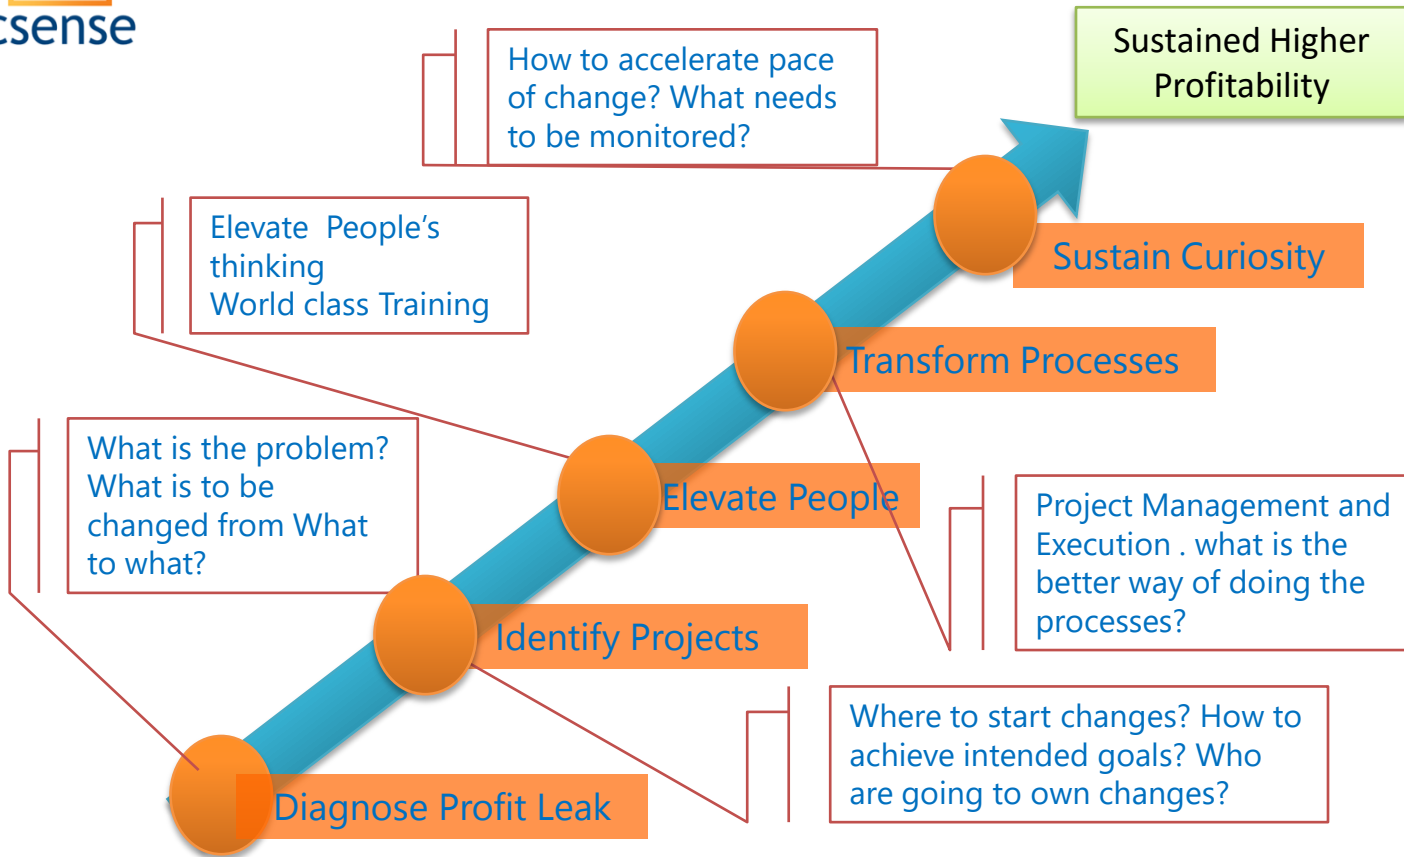

## How do we do it?

We partner with organisations in maximising profits and attaining perpetuity through improving their strategies, people, processes, and workspace.

## How do we measure our progress?

To Contribute **Rs. 100 Cr (\$15 Mn)** to the wealth of humanity through improvement initiatives with clients and to improve **1000 lives** through our People Elevation programs during 2020-21.

We follow the sensible 5 Step approach to transformation -

## Diagnose

This step identifies the constraints and business pain areas. We leverage our expertise with Financial Statement Analytics, Top Management Discussion, Gemba Observation, Organisation wide Survey and Lean Analysis tools.

## Identify

Business is all about Prioritisation and Focus. We help you focus on vital few projects to start with. We jointly identify right people who are capable of becoming internal change leaders.

## Elevate

There are different levels of people in an organisation with different needs of Elevation. All these needs will be catered with CSense People Elevation Programs. We help people to change their thought process to bring in change in business processes.

## Transform

We challenge people to experiment with applying what they learnt - with sensible decision making techniques, risk management and strong Project Management Systems. Elevated thinking gets manifested into the improvements in processes and in profits.

## Sustain

CSense is committed to create internal leaders and a infinite pipeline of projects – providing opportunities for continual improvements one after the other. We strive to sustain the curiosity in minds of people.

We Support Implementation of your chosen Tools, let it be Lean, Six Sigma (DMAIC Implementation), Kaizen, 5S, CAPA, Problem Solving, TPM, Design of Experiments (DoE), Poka Yoke, Business Process Reengineering (BPR) and so on.

CSense Curious Minds (consultants) are having many years of experience in implementing, hand holding and coaching of projects, delivering substantial results.
